

Red9's Sr. DBAs have decades of collective experience to handle whatever you need.

Have you been dealing with:

- A lack of SQL expertise internally?
- Reoccurring performance or stability problems?
- The need to upgrade your SQL Server?
- A migration to the cloud or another data center?
- A DBA leaving and needing an expert to take over?
- Wanting disaster recovery, high availability, or AlwaysOn?

How Red9 can help:

At Red9, we have decades of collective experience solving a broad range of issues in a variety of different environments. From one server to hundreds, we've got you covered. If you're looking for short term project help or a one time fix, let Red9 be your expert advisor.

Testimonials

Red9 proved to be highly capable and productive

Red proved to be highly capable and productive. They provided complete end-to-end evaluation on database design, development and performance capacity and successfully executed those recommendations. **Red9's SQL database expertise is highly regarded.**

SolTech, Inc.

Highly regarded SQL database expertise

It has been a great pleasure working with Red9. From the get-go I could tell Red9 SQL DBAs knew what they were talking about, and put my mind at ease. **We will be using Red9 going forward for everything database related. I would highly recommend Red9.**

Mike Kennedy
Technical Director
Quicket

Solved issues others couldn't

Very knowledgeable and easy to work with. Red9 was able to solve issues that others couldn't, advised better options for our business needs based on Red9 SQL experience with larger systems, and **completed everything in a shorter time than expected.**
